

CUSTOM TOTE BAGS

FOR PATIENT BELONGINGS

Customized tote bags are ideal for enhancing your hospital's image. There are several styles to choose from, and can be printed in multiple ink color combinations. We can even create custom art for you at no extra charge. All bags are made from recyclable polyethylene.

Your local Centurion representative can help you select the best tote bag for your needs and budget.

CUSTOM BAGS

Customized tote bags are available in a variety of sizes and colors. Most bags can be printed on both sides, and all of them can be constructed with gussets for extra capacity. Additional options available.

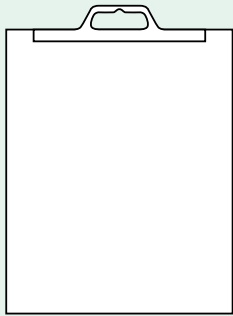

Drawstring

Drawstring bags cinch shut with a soft, white fabric cord that forms a handle.

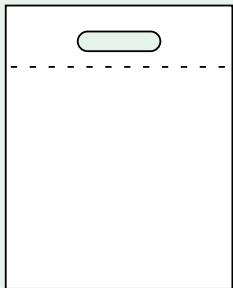

Drawtape

Similar to the drawstring bag, this bag has a 1" wide heavy gauge poly tape as its handle.

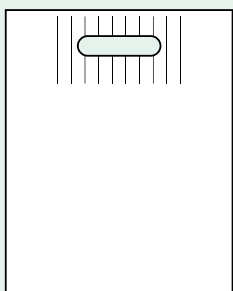

Rigid Handle

This premium bag has a pair of handles welded to each of its sides. These sturdy white handles snap shut.

Fold-over Die Cut

The top of this bag is folded over and sealed, creating a thick hem that adds strength to the cut-out handle.

Patch Handle

Similar to the fold-over die cut bag, this bag has an additional patch of clear heavy gauge film around the insides of the cut-out handle to provide extra strength.

STANDARD STOCK BAGS

In addition to custom tote bags, we offer a large selection of pre-printed bags to fit a variety of needs.
